

April 28, 2021

University of Maryland Baltimore County
1000 Hilltop Circle
Baltimore, MD 21250

Dear Dr. John Borrero,

It is with great pleasure that I write you on behalf of the Association for Behavior Analysis International (ABAI) Accreditation Board to inform you that the Board has granted the M.A. in Human Services Psychology - Applied Behavior Analysis Program at the University of Maryland Baltimore County full accreditation through December 31, 2025.

During this period, your program is required to share its accreditation status and display the ABAI Accreditation Board masters-level accreditation seal in compliance with the Board's policy on public disclosure of accreditation status. To maintain accreditation, your program must remain in compliance with the Board's policies and procedures, including the submission of an annual report and annual accreditation fees, during the first quarter each year the program is accredited. If your program chooses to re-apply for accreditation before the current term expires, a new self-study will need to be submitted to the Board before April 1, 2025. More information about the policies and procedures relevant to maintaining accreditation can be found on the Board's website: <https://accreditation.abainternational.org>

Accreditation is specifically designed to convey information about a training program's comprehensiveness, rigor, and quality. Its purpose is to promote quality control within the discipline's training programs. The Board would like to extend its appreciation to your program for helping to preserve the integrity of the field's training programs.

The site visitors raised question as to whether items 3-109 and 7-100 were met. After reviewing the self-study, site visit report, and your program's response, the Board is satisfied with the response to the questions about the programmatic data on the website and in the handbook. The Board appreciates the collegial nature of the response to the site visit report and the clearly developed plans to implement changes, some of which are already in effect.

The Board acknowledges the program's long-standing success in placing graduates into doctoral programs. We suggest that the program considers offering an explicit thesis option to students interested in doctoral training.

If you have any questions about accreditation, please do not hesitate to contact me. Additionally, if your program assigns a new Program Administrator during the current term, please notify the Board immediately so we may update our records.

ABAI
ACCREDITATION
BOARD

Sincerely,

Jenna Mrljak
